

Columnlift®

BMR-A & BMRSD Series Flashing Platform Lights

MAXON®

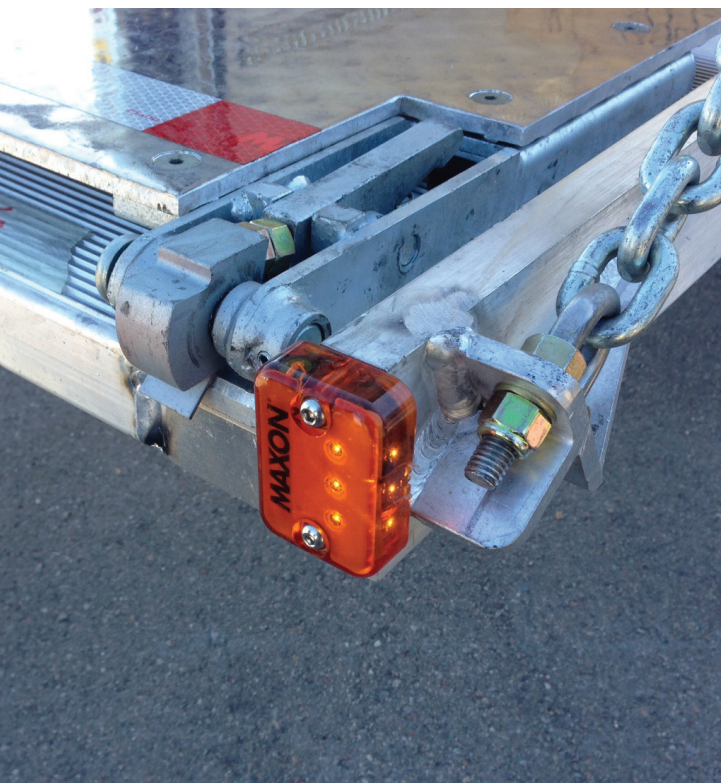

Standard Flashing Platform Lights

Maxon **BMRA** and **BMRSD** Columnlifts now come standard with flashing lights that are attached to the corners of the platform. These lights are self-contained (battery powered) and switch on when the platform is horizontal and switch off when the platform is stowed.

These lights are also available as kits to retrofit older units.

Note that in order to activate the lights initially, a link wire (see picture) needs to be cut.

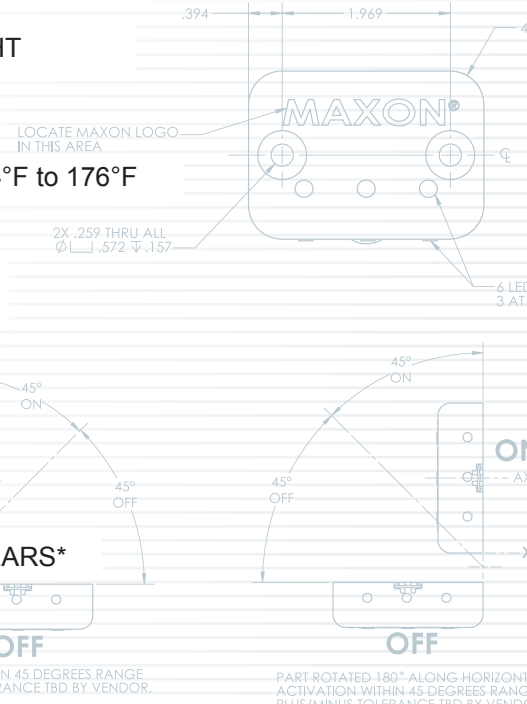

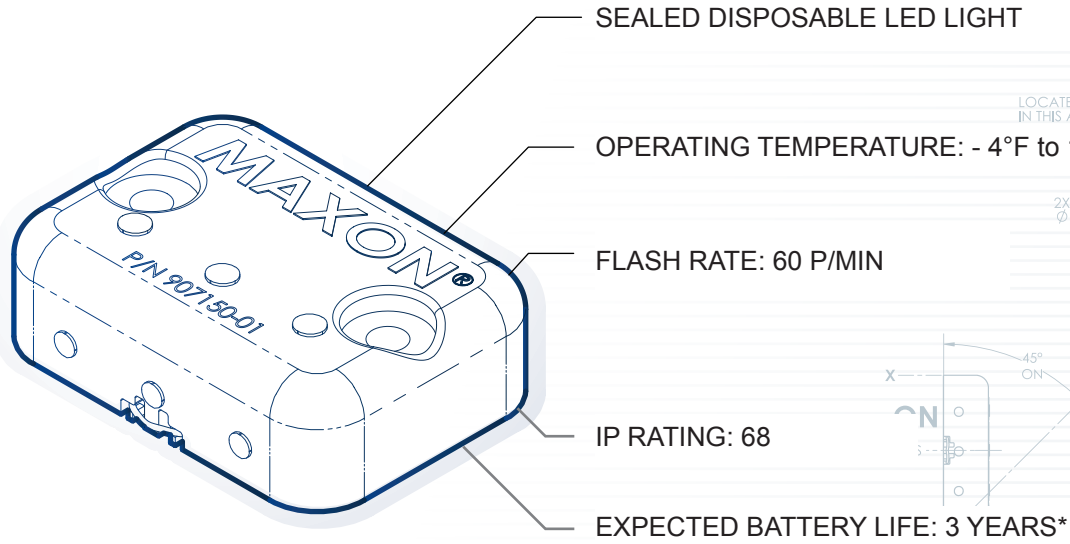

*Excludes the gas bottle "CS" models which will follow at a later date
