

Don't let rust cost you more money! Maxon offers Galvanized finish at NO additional cost on the complete C2 Light Duty Product Line.

We're simply going to let these photos tell the story....

Don't let the issue of rust cost you more money. MAXON offers a galvanized finish option for its C2 liftgate product line at NO additional cost This option is available for models with aluminum, bar grate, or grip strut platforms.

C2 liftgates provide easy, safe, and cost-effective lifting of light to moderate loads. As the latest addition to its light duty series for pickup trucks, service bodies, stakebed and van bodies, C2 liftgates are built with high performance and low maintenance in mind.

All galvanizing is done in-house in our state-of-the-art galvanizing plant which allows us to pass along this great option at no additional cost for our C2 product line. Call your local Maxon Sales Representative NOW for pricing.

Additional information can be obtained from Maxon and local Maxon sales representatives at 800-227-4116 or www.maxonlift.com
