Distributed by:

Large Platform

RA design utilizes full trailer width resulting in the largest platform sizes possible

Level Ride Platform

The RA rides level all the way to the ground which allows loads to be easily loaded or unloaded

Hydraulic Locking System

The hydraulic system automatically locks the gate as soon as the operator releases the control switch

Stow Light

Indicator light that signals if the gate is correctly stowed or in operation

GALVANIZED Finish

For the utmost in corrosion protection, RA liftgates are shipped with a galvanized finish
