

Merlin Solar Charging

Maxon offers a host of industry- leading charging solutions for auxiliary batteries. Most of these solutions help optimize the re-charge of batteries by making the most out of the power that is available. Only solar panels add additional power beyond what the alternator generates and only solar panels can charge when the engine is off.

- Industry-leading power output
- Enhanced performance under all light conditions
- Redundancy by design
- Military grade design, materials and approvals
- Designed and engineered in the USA
